B.A.	Major	Money, Banking & Public Finance	BA EC 501
Total Credit: 6		Max.Marks:100 (Internal:40+External:60)	

Course learning outcomes (CLO):

1. Learn about the basic concept of Money, and its various functions.
2. Get knowledge about the recent reforms in the banking sector.
3. Analyses the efficacious role of central bank in regulating the banking and financial system.
4. Describe about the public revenues and their sources, taxation and the principles of public expenditure.
5. Explain about the public debt and methods of debt redemption.

Units	Topic	Duration (In Hours)	Marks
I	Basic Concepts: Money Meaning, Functions and Classification, Systems of Note Issue, Demonetization. Value of Money and Inflation: Quantity Theory of Money Cash Transaction and Cash Balance Approaches; Milton Friedman's Approach to Quantity Theory of Money. Keywords: Note Issue, Demonetization , Transaction, Balance	15	20
II	Commercial Banking: Meaning and types, functions of commercial banks; Process of Credit Creation- purpose and limitations; liabilities and assets of banks; Evolution of commercial banking in India after independence; a critical appraisal of the progress of commercial banking after nationalization; Recent reforms in banking sector in India. Keywords: Banking, Credit Creation, Evolution	15	20
III	Central Banking: Functions of a Central Bank, Quantitative and Qualitative Methods of Credit Control- Bank Rate Policy, Open Market Operations, Variable Reserve Ratio and Selective Methods; Role and functions of the Reserve Bank of India; objectives and limitations of Monetary Policy with special reference to India. Keywords: Qualitative, Quantitative, RBI	24	20
IV	Nature and Scope of Public Finance: Meaning and scope of Public Finance; Distinction between private and public	18	20

	finance; Public goods vs. Private goods; The Principle of Maximum Social Advantage. Public Expenditure: Meaning, Classification and Principles of Public Expenditure; Causes and effects of public expenditure; Causes of growth of public expenditure in India Keywords: Finance, Private goods, Social Advantage, Classification, Principles, Causes, Effects, Growth,		
V	Taxation: Sources of public revenue; Taxation-meaning, Canons and classification of taxes; Goods & Service Tax (GST), Impact and incidence of taxes; Taxable Capacity: Effects of taxation, Characteristics of a good tax system. Public Debt and Financial Administration: Sources of public borrowing, Effects of public debt, Methods of debt redemption; Growth of India's public debt; Budget-kinds of budget Keywords: Revenue, Canons, GST, Effects, Incidence, Redemption, Budget	18	20

Course	Category	Subject	Subject Code
B.A.	DSE	Basics of Mathematical Economics	BA-EC- 502
Total Credit: 4		Max.Marks:100 (Internal:40+External:60)	

Course learning outcomes (CLO):

1. Identify, solve and interpret the characteristics of each family of functions: linear, polynomial, exponential, and quadratic.
2. Apply basic mathematics that enables the study of economic theory at the undergraduate level, specifically the courses on micro economic theory and macro- economic theory.
3. Develop skills to learn advances in computing power & techniques which play a major role in making quantitative methods a fundamental aspect of economics.

Units	Topic	Duration (In Hours)
I	Preliminaries: Sets and set operations; relations; functions and their properties, number systems; Venn diagram. Keywords: Set Theory, Set Operations, Number System, Real Number	12
II	Equations and concepts of Mathematical Growth: Linear and Quadratic Equation: One variable and simultaneous equations and Quadratic Equation, Ratio, proportion and Growth-Simple, Compound and exponential Some economic problem regarding to consumer and production behavior and applications in Economics. Keywords: Quadratic, ratio-proportion, consumer surplus, producer surplus	12
III	Basic Coordinate Geometry: Function and their Graphic representation, Introduction, function, illustration, Graph of a function. Used in economic problem Geometry of two dimension- Locus of a point, Equation formation for a straight line, Rectangular hyperbola, the parabola. Keywords: Convex Function, rectangular hyperbola	12
IV	Differential Calculus: Limit, continuity and Derivates and Application of Differentiation in economic theory Limit and Continuity of function, Differentiation of Logarithmic function and exponential function, First and high order derivates, partial derivates, Maxima and Minima, differential and total derivates Revenue function, elasticity of demand and supply, cost and profit function, effects of taxation	12

	and subsidy on monopoly, Market condition, Homogeneous function, multiplier. Keywords: Differentiation, Maxima Minima	
V	Determinants and Matrices: Determinants and Matrices: Algebra of Matrices or Operations with matrices, Some definition and operation, Input and output analysis. Keywords: Determinants, matrices, input output analysis	12
VI	Linear Programming and Game Theory: Introductory Linear programming: Graphic and Simplex method and Basic concept of Game theory Keywords: Graphic method, game theory
